Trades Monitor Reference

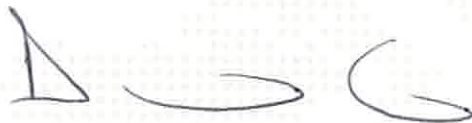

We have been using the Trades Monitor contractor management system at Valley Longwall International since March 2009. I introduced the Trades Monitor system into Valley Longwall International, having previously used the system for approximately 2 years in Dairy Farmers.

We are well aware of the risks associated with managing contractors and Trades Monitor has been able to assist the business minimise our risks in this area for a very reasonable fee. We have been very happy with the service they provide.

Our contractors have also been supportive of the system, providing the information required so that we can continue to operate our business with as little disruption as possible.

Trades Monitor have managed to reduce our risk, enabled us to comply with our OH&S obligations, and saved us time, money and paperwork along the way. We feel Trades Monitor is an asset to our business.

Best Regards

David Carter

Group HS&E Manager
